IV. What were the Committee's actions and accomplishments this year relative to each of the items of the charge?

7 K U R E S E A research proposals received full review and subsequent approval from HSC. Of the remaining submissions, 1 were reviewed solely by the chair, with the vice-chair reviewing 2 submissions (research proposals submitted by F K L D U V F R O O H J H \$ Q G H) . D Y S R Q C D R F O O H V Z S H R I 1 X U V L Q J continued to review the NIA and HHS IRB Policies. 9 What were the Committee's formal recommendations?
HSC recommends that we continue to look into a mechanism for updating the website to allow for proposals to be directly uploaded on the website instead of being emailed. We also recommend that we continue to work on developing a formal cooperative agreement policy for instances in which researchers from other universities with prior IRB approval wish to collect data at UNA.

9, What does the Committee plan to accomplish

\$ In the coming year?

The committee will also aim to continue to improve efficiency of the IRB process in order to review proposals in a timely fashion.

% In future years?

Future years' goals will be similar to the above stated goals.

9,, What are the Committee's weaknesses?

The HSC committee worked very well together this past year. However, there are typically 1-2 committee members that are either non-responsive or provide minimal effort. It will be important for the new chair to establish expectations at the first meeting and hold committee members accountable for their actions.

A. What can the Shared Governance Committee help you do to address the weaknesses?

We believe this is an internal issue that can be addressed within the committee. If issues continue to arise, Shared Governance may be able to assist the HSC by removing any members who are not meeting expectations.

VIII. Comments.

H[SHGLWHG SURSRVDOV DQG KID. The committee
is appreciative of the recognition of the time commitment necessary to review
these proposals by the VPAA's Office. By providing a course release to the
chair, this will allow him or her to work more efficiently. However, if the
upward trend in submissions continues, it may be necessary to consider hiring
a part-time staff member with experience reviewing IRB proposals, or elect
College IRB co-chairs to lessen the burden on the HS Chair.
